

Box and Paper Collection

Free collection after your move · Effective September 2026

If Logistics Group Services has done the packing for your move, we will be happy to collect the boxes and paper, free of charge, when you have finished unpacking. Please let us know a convenient date and we will collect.

The free collection service is offered at our discretion and does not form part of any quote or contractual obligation.

The reason for the free collection is because we try our best to re-use as much as possible and avoid landfill and therefore have a few requests for your box and paper collection.

Please try to

- Keep the boxes and paper dry or indoors until collection. Once it has been wet we cannot use it again and has to be disposed of, which may incur a disposal charge.
- If at all possible, please flat pack your boxes as it was manufactured without damaging or cutting them open on the sides or walls. If in doubt, leave them as they are and we will flat pack them.
- Please separate all your paper and bubble wrap into separate refuse bags. This helps with keeping it dry and for storage.
- Please do not add boxes from appliances or other boxes to the collection as we cannot use them and have to pay to have it disposed of.

You are of course welcome to gift the boxes or dispose of them as you wish.
